

Nursing & Midwifery

close-up

I chose Sydney because of the great flexibility, speed of program delivery and for its great reputation and research capability. It has lived up to my expectations and opened up the extremely flexible world of nursing to me.

Jonathan Meisner,
Master of Nursing, 2nd year

Why Sydney?

- Access to 300 clinical centres, including major referral hospitals, community health centres, early childhood centres, nursing homes, schools and other hospitals throughout Australia
- Opportunities to study in areas such as acute/critical care, mental health, community nursing and developmental disabilities
- Clinical competence is achieved through practical experience in health care settings
- Opportunities for ongoing professional education
- Internationally recognised qualifications and exchange programs

Modern nursing is concerned with:

- The care of people who are ill
- Health promotion
- Illness prevention

- Enabling people to become more responsible for their own health (primary health care)

Graduate entry

The Faculty of Nursing and Midwifery offers a two-year graduate entry course that leads to eligibility to register as a nurse.

Articulated degrees

The faculty offers a range of articulated programs from undergraduate degrees into the graduate programs. For the latest information on these degrees please visit our website www.nursing.usyd.edu.au.

Recognition

Graduates are eligible to apply for registration with the Nurses and Midwives Board, NSW. Our courses also provide a good pathway to postgraduate study and specialisation.
